

# Specification

## **Product Code: 75634**

Name: LED Outdoor Spot Lamp

Description:

Light Color: White

Lamp frame Material: Aluminum

Operating Circumstance:

Input voltage: 90-260V/AC

Frequency : 47-60HZ

Environment temperature:  $-35^{\circ}\text{C}\sim+40^{\circ}\text{C}$

working temperature:  $\cong 75^{\circ}\text{C}$

Electric characteristic:

Luminous Efficiency:  $\cong 75\text{LM/W}$

Total current of whole lamp: 227MA

Power:  $50\text{W}\pm 5\%$

Lamp's Efficiency:  $\cong 95\%$

Luminous flux:  $3750\text{Lm}\pm 5\%$

Total Harmonic Distortion:  $\cong 15\%$

Color Rendering Index:  $\text{Ra}\cong 80$

Color temperature:  $6000\text{K}\pm 5\%$

Lifetime of lamp-house: 30000 h

IP: 65

Electric safety standard: CLASS II

Installation instruction: Open the electric box, put the wire through the waterproof junction, fasten the wire following the indication of label and then closed the box. Make sure the fastness of screw and silicon ring.

Attention: Fix the pole in terms of the angle of light. Make sure the fastness between the bracket of lamp and install position. Don't turn on the switch until confirming the fastness and connection.

After Service: The product refers to the Electric domain, Please don't open it unless you are an expert! When you met any product failure, please contact with the after-service department.
